UNIT-e SRTS Information Interface is available in three editions:

- Information Interface (Standard Edition)
- Information Interface (Advanced Edition)
- Information Interface (Professional Edition)

Institutions can upgrade from version to version enabling a stepped, managed approach to the evolution of Information Interface designed applications.

Standard Edition: for users who only wish to take advantage of the new design environment.

Advanced Edition: created as a result of customer led demand substantially enhancing the layout controls.

Professional Edition: providing all the functionality of Standard Edition, Advanced Edition and including business logic such as scripting, generic de-duplication and merging.

the total education management solution
