

## UNIT-e Student Records Tracking Solution (SRTS) Student Messaging

UNIT-e Student Messaging provides you with a method of sending messages to a group of students or a single student via email or SMS to their mobile phones. In addition, SMS messages can be received by UNIT-e Student Messaging, allowing students or businesses to text the college.

UNIT-e Windows Services is a facility that enables you to send messages *from* your UNIT-e system and receive messages *into* your UNIT-e system. Simple web interfaces are available to enable this simple yet effective process.
