

UNIT-e Markbook

Enabling teachers to manage and monitor assessments in the classroom

For many years organisations have been seeing the benefits of register marking in the classroom, now UNIT-e brings the same efficiency and accuracy gains to assessment management. UNIT-e Markbook uses the latest web-based technology to bring fast and easily accessible tools to the classroom.

The benefits of UNIT-e Markbook:

- Reduced administration - paper trails are removed and marks updated instantly by teaching staff
- Accurate - with data entered closest to the point of source with fewer inaccuracies
- Flexible - allowing marks in multiple styles including grade, numeric, percentage, and subjective
- Easy to use - grid style entry makes marking fast and effective
- Consistent marking – the marks that a lecturer can enter can be controlled to reflect college standards
- Responsive - enables creation of assignments at any time which can be updated with late enrollers
- Quick to implement - web-based with no requirement for local PC set-up
- Enhanced student experience - mark updates are provided via SMS or e-mail.

Features include:

- Create grade-sets - decide how you wish to mark the assessment
- Grid layout - choose how you wish the mark grid to look to suit your style of working
- Mark by assessment or student - choose whether you wish to mark in a student centric or assessment centric way
- My Classes – when the system opens, lecturers can see and mark the assessments for the students they teach or tutor
- Allocating grades – when a lecturer enters a mark, Markbook will calculate and display the appropriate grade, pass or fail result and a suitable comment, if required, following pre-defined college rules
- SMS and e-mail - in conjunction with Student Messaging Services, inform your students rapidly with the results of their assessments.
